

UROVO

RFG91

UHF RFID Sled

Professional and Versatile Data Collection

All-in-one RFID reading and barcode scanning, three data collection modes, one-click to switch, transforming your phone into a professional data collection device.

Outstanding RFID Performance

Equipped with the Impinj E710 chip and supporting Impinj Gen2X, it delivers a faster RFID reading rate of 1300+ tags per second and a longer reading range of over 15 meters.

Effortless Bluetooth Communication, Seamless Operations

Easily connects with devices running Android, iOS, Windows, and more; supports three quick pairing modes: NFC tap-to-pair, Bluetooth search, and scanning.

Lightweight, Perfect in Hand

Weighing just 390g, the ergonomic design ensures a comfortable fit in the hand, with a standard wrist strap for a secure grip and enhanced stability.

Flexible Battery Options

Standard 5000mAh removable battery, with an optional 6700mAh high-capacity battery, supporting battery management, offering flexible endurance for various scenarios.
